

MAZAN[®]

STUNNING ACRYLIC GLASS

KITCHENS & BATHROOMS

THE LOOK OF TRADITIONAL GLASS BUT WITH NONE OF THE HASSLE...

Our stunning new Mazan acrylic glass is the perfect modern splashback, shower and feature wall panel. Ideal for a number of different applications throughout the home, Mazan acrylic glass can be used as an alternative to both traditional glass and ceramic wall tiles. It has the look of stunning colour backed glass but as it's much quicker to cut to size and install, comes in at a much lower price.

WHAT IS MAZAN?

Mazan acrylic glass is an affordable, yet dazzlingly beautiful collection of panels for kitchens, utility rooms, bedrooms, bathrooms and shower rooms throughout the home. It is the 21st century alternative to ceramic tiles and traditional glass.

It has a standard range of 18 diverse solid and metallic colours and has a thickness of 4mm. This gives you a fantastic colour intensity and reflection through Mazan's acrylic glass surface and exposed edges - just like traditional colour backed glass.

Mazan acrylic glass is now also available in any RAL colour enabling you to perfectly match it to other features in your home.

Along with our colour match service Mazan acrylic glass is also offered with a digital print service - this means you can design panel images that can be uniquely tailored to your space and style.

Mazan acrylic glass is environmentally friendly as it uses much less energy than traditional glass during its production and can also be recycled.

And, in the unlikely event of Mazan acrylic glass panels suffering damage, you can easily have them repaired. So, you avoid having to scrap and replace the panels, which helps the environment and saves you a lot of cost. Totally unlike traditional glass, which has to be scrapped in the event of damage. Both beautiful and tough, Mazan acrylic glass is a highly durable surface for the ups and downs of everyday living.

It is 25 times more impact resistant and stronger than traditional glass, so it will not shatter when it is bumped into. It has a high heat resistance (up to 100°C) and will put up with the kettle steaming against it one minute and an icy blast the next because someone has left a door open in the middle of winter!

A diagram showing a cross-section of the Mazan acrylic glass. It consists of a thick orange layer on the bottom and a thinner dark grey layer on top. A vertical double-headed arrow indicates the thickness of the dark grey layer, which is labeled '4mm ACRYLIC GLASS'. A horizontal arrow points to the orange layer, which is labeled 'BACK PAINTED SURFACE'.

BACK PAINTED SURFACE

SAVES YOU MONEY

Traditional glass has to be precisely measured and then manufactured in a specialist workshop before installation can even begin. For example a cut out in traditional glass for a single plug socket can cost up to £100 and take well over a week to template, manufacture and return to your home to install.

But Mazan acrylic glass is much quicker to fit and it's also better value for money. It can be installed immediately on site and a socket cut out takes just minutes. This saves valuable installation time, which helps get your installation finished on time and at a lower cost.

And, unlike traditional glass, Mazan acrylic glass is repairable. In the unlikely event your panels become scuffed or scratched, these marks can be polished away and your panels will look as good as new. Consult our Mazan 'Care and Maintenance Guide' for full details.

MAZAN VERSUS TRADITIONAL GLASS

MUCH LESS COST PER CUT OUT

100% WATERPROOF

WHERE MAZAN CAN BE USED

KITCHENS - p10

The heart of the home, kitchens are the ideal place for Mazan acrylic glass because of it's easy to clean and completely hygienic surface. It also has an excellent resistance to many cleaning chemicals, everyday stains, scratches and the ultraviolet rays from sunlight. Mazan is perfect for kitchen splashbacks and feature walls.

BATHROOMS - p14

Just because Mazan acrylic glass is so beautiful and easy to fit does not make it a compromise in other areas. Mazan acrylic glass creates stylish, 100% waterproof shower wall panels and matching splashbacks behind baths, sinks and bowls to create a wonderfully colourful bathroom or shower room.

KITCHEN SPLASHBACKS & HOB PANELS

With 18 dazzling colours to choose and with numerous panel sizes available ready for delivery from stock, you won't have to wait long to have your Mazan acrylic glass splashbacks and hob panels fitted easily into your new kitchen. Super strong and even more beautiful, Mazan acrylic glass splashbacks and hob panels are the perfect way to finish your kitchen.

If you have a gas hob, Mazan offers a full range of traditional glass hob panels colour matched to the Mazan acrylic glass range which are cut to standard sizes, ready to be installed. These traditional glass hob panels are not required if you have an electric hob.

KITCHEN SPLASHBACKS & HOB PANELS

Splashbacks and hob panels are the ideal way to use Mazan's range of solid and pearlescent colours to make your kitchen uniquely beautiful.

As Mazan acrylic glass is as tough as it is stunning and is completely waterproof, it is designed to withstand everything your kitchen can throw at it.

IMAGES

2. Hob panel behind cooker - *Pure White*
3. Hob panel - *Shallow Water*

We have used a Mazan acrylic glass hob panel behind the range cooker in image no.3. As the hob of the range cooker is electric, a traditional glass hob panel is not required. Please see page 21 for more information about our traditional glass hob panels for gas hobs: all of which colour match Mazan acrylic glass and are cut to standard hob panel sizes, ready for immediate installation.

BATHROOM SHOWER PANELS

Mazan acrylic glass shower wall panels are the perfect way to finish off a modern bathroom, they can instantly make any surface waterproof and are ideal for both renovating an old space and for polishing off a brand new bathroom.

Shown here in a bold yellow, Mazan acrylic glass can be the focal point of any modern space.

2. Shower panel - *Shallow Water*

In our bathroom shown to the left we have used two Mazan acrylic glass panels on the back wall and the side wall. The shower tray is situated in the corner of the room making plumbing easy and installation of the Mazan acrylic glass panels simple.

BATHROOM FEATURE PANELS

Mazan acrylic glass can be used to clad any bathroom wall for not only making it waterproof but also adding stunningly deep colour.

Here it has been used on an entire bathroom wall to create a bold space that has set this bathroom apart. Also shown is a splashback in our Swimming Pool colour that has quickly sealed in the space behind a sink.

SHEET SIZES

PANEL SIZES

- 3600 x 600 x 4mm
- 3050 x 1220 x 4mm
- 3050 x 600 x 4mm
- 2440 x 1220 x 4mm
- 2440 x 900 x 4mm

GLASS HOB SIZES

- 600 x 200 x 6mm
- 900 x 200 x 6mm
- 600 x 750 x 6mm
- 900 x 750 x 6mm

With so many Mazan acrylic glass sheet sizes, you can order almost exactly what you need with very few off cuts.

10 YEAR WARRANTY

Mazan has a 10 year limited warranty. Please refer to our ‘Care and Maintenance Guide’ for full warranty details.

INSTALLATION

Completely unlike traditional glass, which has to be templated and then machined in a specialist factory, Mazan acrylic glass can be easily cut to size and installed on site using standard woodworking tools. So, Mazan acrylic glass avoids the delays and inconvenience of traditional glass and ceramic tile products. Mazan acrylic glass has a comprehensive choice of panel dimensions available from stock. This dramatically cuts down the number of wasteful offcuts on a project. The larger panel dimensions (up to 3600mm lengths) also make sure that panel joints are minimised.

Mazan acrylic glass is just half the weight of traditional glass, making installation much quicker and easier and helping to cut down on installation costs. It can be easily installed in either a new build or refurbished property. Speak to your installer about how Mazan acrylic glass will work for you.

JOINTING & END CAP EXTRUSIONS

The acrylic glass edges of Mazan panels are one of the most attractive features of the Mazan range and these edges are often openly displayed as part of the design of a project. However, as an alternative solution, a range of extrusions are available for corner joints, in-line joints and end caps.

All extrusions are colour matched to the complete range of solid Mazan colours. Plus there is a chrome effect finish. The length of each extrusion is 2440mm.

External Corner:
suited for the external corners of
columns and walls.

Internal Corner:
suited to shower enclosures.

Hjoint:
a straight panel connector for a series
of panels on a flat wall.

End Cap:
used at the vertical open end and
when a panel meets the floor.

GAS HOBS

Traditional glass hob panels are used in conjunction with Mazan acrylic glass behind gas hobs. Traditional glass hob panels are not required behind electric, induction or ceramic hobs.

Please ensure your installer consults the installation instructions carefully for the installation of Mazan behind hobs.

CLEANING & CARE

Mazan acrylic glass is easy to keep clean using warm water and a microfibre cloth or chamois. For stubborn stains, non-abrasive cleaning materials are available that are designed to be used with Mazan’s acrylic glass surface. Strong cleaning chemicals are not required. Because Mazan acrylic glass is 100% waterproof, it is completely hygienic and bacteria will not develop on its surface.

Unlike tiles and traditional glass, Mazan acrylic glass is tough and will not fracture or shatter. Minor scuffs and scratches can be polished away, repairing the surface to its original high gloss finish.

DIGITAL PRINT

Our stunning digital print range enables you to create your perfect bespoke wall or splashback. We have shown an example of the use of digital print, in the image shown above.

Any high resolution image can be used which can be a photograph or a graphic pattern. Just give us a call for any help or advice for when choosing your graphic design or photographic image.

RAL COLOUR

If you have a particular solid or metallic colour in mind we are now able to colour match to any RAL colour - please see our website for more details. RAL is a comprehensive chart of solid colours used in Europe for colour matching. Find below a chart of popular RAL colours, however this list is not exhaustive with many other colours available. For more information visit www.ralcolor.com Please note because of the limitations of the print process this chart should be used as a guide only.
