

OPEN
HOUSE®

BEAUTIFUL KITCHENS. BRITISH DESIGN.

At Open House we spend a long time thinking about kitchens and how they can work for you, we know a lot about what is popular now and what has been popular in the past. Be it in design, technology or layout. In fact some may even say we are just a little bit obsessive...

The kitchen space has changed radically over the last 100 years. Influences from around the world have fed into not only British and European kitchen design but also into our way of life. The kitchen is no longer hidden beneath stairs but is now at the very heart of the modern home and family: often with walls removed to combine kitchen and dining spaces. And this is why selecting a kitchen is one of the most important aspects of creating your home, as it's also about creating your ideal space and lifestyle.

Hopefully this is where we come in though, as sometimes it can be pretty useful to know an obsessive...

Clickbox System

ClicBox is an entirely new concept in kitchen cabinets. Using the patented UNICLIC for furniture technology, means the different components just clic together.

The UNICLIC technology is a tongue and groove solution which enables a click connection at an angle of 90°. This revolutionary technology makes it possible to assemble flat packed kitchen cabinets by simply clicking the components together, without requiring any tools or screws!

NO VISIBLE FITTINGS

As there are no fittings required with UNICLIC, the technology is completely invisible.

STRONGER CONNECTION

The click connection is stronger than a traditional assembly system as the joints interlock along the entire assembly length instead of only on 2 fixing points.

- ✓ Assemble on site.
- ✓ No tools, no missing fittings.
- ✓ Less chance of damage in transit.
- ✓ 67% saving in vehicle space.
- ✓ Suitable for limited access areas.
- ✓ Ideal for multiple floor buildings.

FEATURES THAT MAKE THE DIFFERENCE

18mm thick MFC panels,
1mm ABS on leading edges

8mm solid MDF back

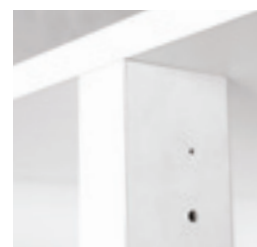

Solid top and bottom
are interchangeable

18mm adjustable shelves;
3 possible heights

Tool-less adjustable legs.
Height - 150mm

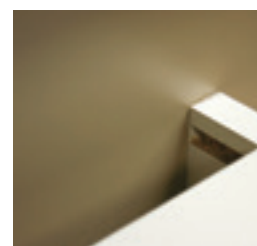

Tool-less solid centerpost with
a Turnfastener technology

Tool-less and adjustable
hanging bracket system

Wall Cabinets are 330mm
deep with 18mm void.
Internal depth 304mm

Base Cabinets are 570mm
deep with 49mm void.
Internal depth 513mm

The ClicBox Kitchen Range has been tested at FIRA International Ltd and successfully meets the structural performance requirements of FIRA Gold certification to Heavy Domestic / Contract Kitchen Furniture: FPG S006 - Level H Specification.

Care and Maintenance

As with all timber based items our products should not be stored or installed in a newly plastered or damp environment.

To clean door surfaces use a soft clean cloth, warm soapy water should be used to dampen the cloth (not wet). Dry off with a soft dry cloth.

Do not use aggressive cleaning liquids or items such as Brillo Pads etc.

To avoid damage by excessive heat please follow these simple guidelines:

- When installing doors adjacent to ovens always ensure that doors are shielded by using heat deflector strips
- Never use any appliance which generates high levels of heat or concentrated steam (such as a toaster, kettle or pressure cooker) directly under or adjacent to a door or panel.

High Gloss colours

After removing the protective film please allow the surface to cure for seven days before cleaning or wiping. To clean the surface of the doors, wipe using a soft cloth with a mild, non abrasive, dishwashing detergent diluted in warm water. The mix should be 1% detergent to 99% warm water. You should never use any vinegar based detergents, solvents, abrasive detergents, white spirit or furniture polish.

Polishing High Gloss finishes will leave minor scratches and polish marks, this is normal with this type of finish.

6 Year Door Guarantee

All our doors have a conditional 6 year warranty.
