

1810

A SCHOCK GROUP COMPANY

# AXIX & Accessory Troughs

## About AXIX: An 1810 innovation...

This unique concept allows for a combination of solid surface, quartz or stone and a contemporary designed sink to give a finished look of a steel-bottomed material-clad sink without a join between the surface and the sink at the base.

This system allows for a straightforward fabrication method that can be completed in the workshop using standard tools and creates a watertight solution that allows the use of hot/boiling water taps and creates an upmarket contemporary finish.

AXIX is also backed by our 75-year guarantee that warrants the sinks to be free of manufacturing defects in material and workmanship under normal usage. Any warranty on the fabrication component is the responsibility of the fabricator or retailer.

# AXIX advantages

AXIX sinks have protective powder coating on the underside (Insusound) which insulates, helping to retain the heat of the water in the bowl whilst also reducing noise if a waste disposer is fitted. A full maximiser plumbing kit is also supplied, providing all parts required for any sink installation.

The AXIX sinks are manufactured to the same exacting standards of every 1810 sink using 1.2mm, 304 grade stainless steel - a PVD finish in Copper, Gunmetal, Gold Brass or Matte Black is also available.

PVD stands for Physical Vapour Deposition. A process used to create a very durable, corrosion and tarnish-free finish.

- Matching sink walls and worktop
- Seamless integration or undermounted
- Compatible with boiling water taps
- Available in 12 models and 5 finishes
- 16mm or 26mm lip (see QG or SOS)
- High-end, contemporary look

## Available finishes

AXIX sinks are manufactured to the same exacting standards of every 1810 sink using 1.2mm, 304-grade stainless steel. A PVD finish in Copper, Gunmetal, Matte Black or Gold Brass is also available.

Steel

Copper

Gunmetal

Gold Brass

Matte Black

## QG or SOS?

To ensure your AXIX sink is the correct fit for your worktop, we have simplified the choice into two categories:

**16mm:** For Solid Surface fabrication (suitable for a material of up to 16mm depth), please select an AXIX sink labelled SOS

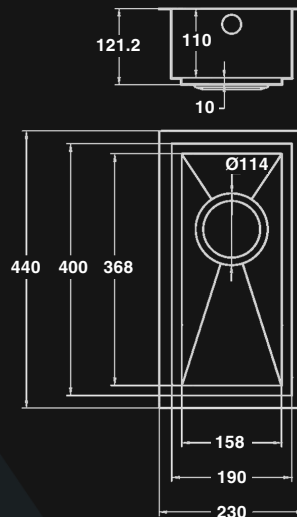

**26mm:** For Quartz Granite fabrication (suitable for a material of up to 26mm in depth), please select an AXIX sink labelled QG.

## Further information

All AXIX sinks are individually-boxed handmade bowls. A Maximiser Plumbing Kit, AXIX Waste Tidy and a 3.5" basket strainer waste and overflow are included with each purchase.
