

A modern kitchen interior featuring light blue acrylic glass cabinets and a matching backsplash. A black range hood is mounted above a white countertop. A black pendant light hangs from the ceiling. A large blue geometric shape, resembling a stylized 'M' or a triangle, is overlaid on the left side of the image. The floor is made of grey concrete tiles.

STUNNING ACRYLIC GLASS

## Dazzling by design

Stunningly reflective and beautifully practical, Mazan acrylic glass provides an innovative and cost-effective alternative to traditional glass and ceramic tiles.

Equally at home in both domestic and commercial buildings, Mazan is quick to shape on-site, easy to install and effortless to maintain, while the bold colour options available ensure every kitchen, bathroom and interior space delivers an outstanding look.

WHAT IS MAZAN?

## Beautifully tough Daringly different Endlessly versatile

A modern and affordable alternative to ceramic tiles and traditional glass, Mazan acrylic glass panels bring interior spaces alive through the playful use of light and colour. Available in a diverse range of standard solid and metallic colours, Mazan panels are easy to install, maintain and personalise, making them an increasingly popular option with homeowners, architects and installers alike.

Mazan is 100% waterproof, heat-resistant up to 100°C and 25 times more impact resistant and stronger than glass. And the impressive numbers don't end there. Mazan is available in five different sheet sizes to minimise offcuts and comes with a 10-year warranty as standard.

## Breaking with tradition

Why choose Mazan over traditional glass?

For many of our customers, the simple answer is cost. Thanks to its versatile design, Mazan can be machined to size on-site, with cut outs for all electrical sockets achievable without the need for expensive specialist equipment. Mazan is also only half the weight of traditional glass, making it much easier to manoeuvre and fit. The result? Safer, quicker and more cost-effective installation.

**Less  
expensive**

**Faster  
installation**

**25x stronger  
than glass**

**Machined

**Ultraviolet  
ray-resistant**

## The right ingredients

Life's too short for bland food and blander décor. It's why the heart of your home is the ideal place for Mazan acrylic glass. With 22 vibrant colours to choose from in a wide range of panel sizes, bringing your kitchen to life with a feature wall or splashback couldn't be easier. And your kitchen will be more hygienic thanks to the easily cleanable, stain resistant and 100% waterproof surface of Mazan.

## Cooking with gas

Mazan panels, unlike traditional glass, can be cut on-site without the need for specialist tools, making installation quick and easy. If you have a gas hob, we also offer a full range of traditional glass hob panels colour-matched to any option in the Mazan range that are cut to standard sizes, ready to be installed.

## A fresh start

At Mazan, we believe practicality should never compromise style. So while our 100% waterproof acrylic glass surfaces make a natural choice for the wettest room in any building, they also make a brilliantly bold one too. Mazan shower panels and splashbacks placed behind baths, sinks and bowls all combine to create a wonderfully colourful and bright space.

## First-class impressions

A retail environment as stylish as the products on show. A reception desk that says 'welcome' to visitors. A cinema that sparkles with star power. All are possible with the introduction of Mazan, which brings intense colour and playful reflections into commercial spaces. For even greater stand out still, combine Mazan mirror finish panels with cleverly positioned lighting for a dazzling light show.

## Wonder walls

Powerful thing colour. It can improve our mood, drive our productivity and even affect our spending habits. It's why many offices, shops and bars use Mazan wall panels to bring interior spaces brilliantly to life in a way that draws attention and positively shapes behaviour.

## Mass appeal

In commercial washroom environments with high foot traffic, having durable, waterproof and easily cleanable surfaces is essential in maintaining hygiene standards. Mazan more than meets the challenge, whether being used for splashbacks, wash hand basin units, modesty screens or wall plumbing panels.

More choice,  
less waste

Thanks to our extensive range of sheet sizes  
you can keep costs, panel joints and wasteful  
offcuts down to a minimum.

PANEL SIZES

- 3600 x 600 x 4mm
- 3050 x 1220 x 4mm
- 3050 x 600 x 4mm
- 2440 x 1220 x 4mm
- 2440 x 900 x 4mm

TRADITIONAL  
GLASS HOB SIZES

- 600 x 200 x 6mm
- 900 x 200 x 6mm
- 600 x 750 x 6mm
- 900 x 750 x 6mm

## 10-YEAR LIMITED WARRANTY

Not only does Mazan offer beautiful versatility and durability, it comes with ten years' peace of mind. Please refer to our 'Care and Maintenance Guide' for full details.

## EASY INSTALLATION

Unlike traditional glass, which needs to be templated and machined off-site, Mazan acrylic glass can be easily cut to size and installed on-site using standard woodworking tools. Mazan is also only half the weight of traditional glass, making it much easier to manoeuvre and fit. All Mazan panels are protected throughout the installation as both the front and rear surface of every panel has a removable protective film.

## ADHESIVES

Mazan panels are easily bonded to a wall or other installation surfaces using a low modulus, neutral cure silicone sealant designed specifically for Mazan. This adhesive is readily available from Mazan's UK and Ireland distributor.

## CUT OUTS

Cut outs for electrical sockets and other objects can be easily created on-site, reducing cost and time compared with traditional glass. It's important to design any cut outs within a Mazan glass panel to have a minimum 8mm radius at corners to prevent stress cracking. The size of standard electrical components will easily cover this radius.

## EFFORTLESS MAINTENANCE

Warm water, a microfibre cloth and a little elbow grease is all you'll ever need to keep your Mazan surface spotless. In the unlikely event of a stubborn stain, non-abrasive cleaning materials are available, while minor scuffs and scratches can be easily polished away to return the surface to its original high gloss finish.

## GAS HOBS

Traditional glass hob panels are used in conjunction with Mazan acrylic glass behind gas hobs. Traditional glass hob panels are not required behind electric, induction or ceramic hobs. Full installation instructions are available.

## JOINTING AND END CAP EXTRUSIONS

While the visually attractive edge of a Mazan panel is often displayed as part of a finished design, we understand that the option of an extrusion can sometimes prove helpful. It's why we've designed a range of options, which can be perfectly colour-matched to the complete range of solid Mazan colours. We also offer a chrome-effect option for further stand out.

**External Corner**  
Suited for the external corners of columns and walls.

**Internal Corner**  
Suited to shower enclosures.

**H-Joint**  
Straight panel connector for a series of panels on a flat wall.

**End Cap**  
Used at the vertical open end and when a panel meets the floor.

Please note, the length of each extrusion is 2440mm.

DIGITAL PRINTING

## Picture perfect

Turning bathrooms into forest views, kitchens into coastal scenes and reception areas into underwater worlds is all in a day's work with our stunning digital print range. A perfect way to turn your splashbacks and wall panels into an instant talking point, all you need is a high-resolution photographic or graphic pattern.

Got a burning question?
