GENERAL INFORMATION

Abet Laminati's Door Collection is a comprehensive range of durable decorative high pressure laminate decors suitable for use on interior door applications and which complements Abet's Cubicle and Locker Collections.

The Door Collection is manufactured in the largest and most modern HPL factory in Europe and conforms to all the requirements of BS EN 438:2005.

This range forms part of a co-ordinated UK & Ireland Collection of stock items in various sheet sizes and thicknesses chosen to serve specialist applications.

The Door Collection comprises:

- 0.9mm standard grade (HGS)
- Standard sheet size 2250 x 1000mm
- Finish Sei texture (a fine-grained texture offering a low glare surface and a limited resistance to finger marks)
- Protective film included as standard
- An alternative sheet size of 3050 x 1300mm in standard and postforming grade is available for most decors

SAMPLES

Should you require samples of any of these decors, please contact the **Abet Laminati's Samples Hotline** on **020 7473 6915** or email: sales@abet.ltd.uk

CLEANING AND MAINTENANCE

The Door Collection will give years of excellent service provided a few simple maintenance rules are followed. Light dirt or stains can be removed easily with warm water and mild detergent. Stubborn marks should be removed using a non-abrasive cream cleaner or mild domestic bleach. Harsh abrasives or scouring powders should be avoided. Grease marks can be removed with a proprietary paint and graffiti remover. Hair dyes, bleaches, caustic alkalis and strong mineral acids should be wiped off within a short period.

More detailed technical information brochures are available from our office and/or your local distributor.

STYLISH AND PRACTICAL

Abet Laminati manufactures the world's most innovative laminates created by the best Italian and international designers. It is Europe's largest producer of HPL products. Our UK and Ireland office is based in London's Docklands and supplies over 1,000 laminate designs in a variety of finishes, sheet sizes and thicknesses – arguably the most comprehensive collection available anywhere.

Our UK and Ireland network of technical sales representatives will provide advice on the use of laminates for every application: the conventional, the unusual, the high performance and the purely decorative. Whatever your project, we can help you to find the right laminate solution.
