Gain the edge

Colour. Texture. Touch. All play a key role when choosing your new kitchen surface. It's important however not to overlook the style of edging for your worktops, breakfast bars and island units. After all, it's only natural to want your kitchen to look the part from every angle.

With Spectra Square-Edge laminate surfaces you get the same crisp and clean-cut lines you get from high-end natural stone and real wood products, but at a fraction of the cost. And the benefits don't end there. Like all laminate surfaces, Spectra Square-Edge is a breeze to clean and provides a super hygienic and versatile option for your home.

Contemporary laminate surfaces

Better all around

All worktops, breakfast bars and island units have a decorative surface on the top, underside and all edges giving you a seamless finish from every angle.*

*2020mm long worktops have two long edges and one short edge bonded with a decorative surface.

Through thick and thin

Spectra Square-Edge worktops, breakfast bars and island units are all available in both 22mm and 40mm thicknesses, giving you the freedom to stay consistent or mix things up.

Works beyond worktops

Designed for maximum versatility, Spectra Square-Edge can also be used for shelves and cabinet framing to bring even more colour coordination into your kitchen and utility room.

Custom-made service

Spectra Square-Edge surfaces are available in a wide range of standard sizes. But you can also have unique shapes and sizes, such as this 100mm thick island unit, by using our custom-made service.

See pages 14-17 for full details.

Going strong

Worktops

spectraworksurfaces.co.uk

Their name says it all, worktops are designed to do hard graft day in, day out. It's the reason all Spectra Square-Edge surfaces are made of highly durable materials that can stand up to our always on the go lifestyles in absolute style.

In addition to being hardwearing, Spectra Square-Edge worktops are able to accommodate sinks, hobs and drainers on top, while ovens, dishwashers and washing machines can be easily slotted below.

24 décors are available to choose from including marble, granite, concrete and numerous wood effects. Additionally, each worktop has its top, underside and all edges bonded with an identical decorative surface* to provide a beautifully seamless effect.

We're firm believers in reducing joints and minimising waste, which is why our worktops are available in a practical range of standard sizes ensuring you only have to purchase what you need for your design. They also have a standard 650mm width to allow appliances to be fitted underneath with room to spare for utility pipes and wires at the rear.

Worktop dimensions:

4050 x 650 x 22mm 2020 x 650 x 22mm*

4050 x 650 x 40mm 2020 x 650 x 40mm*

These standard size worktops can be precisely machined to the dimensions you need for your kitchen design.

*2020mm long worktops have two long edges and one short edge bonded with the same decorative surface.

A fine spread

Breakfast Bars and Island Units

spectraworksurfaces.co.uk

More room to serve. Extra space to breath. Or simply a place to unwind. However you use your breakfast bar or island unit, the additional width and surface area they provide will quickly prove a recipe for success.

ITALIAN
MARBLE
(MATT)

Breakfast bars and island units are available in all Spectra Square-Edge décors in a wide range of standard sizes. What's more, as both sides and all edges are bonded with these décors even the underside perfectly matches the rest of your kitchen. Got something unique in mind? Then take advantage of our custom-made service (see page 14 for details).

Breakfast bar and island unit dimensions:

4050 x 900 x 22mm 2020 x 900 x 22mm*
4050 x 900 x 40mm 2020 x 900 x 40mm*

These standard size breakfast bars and island units can be precisely machined to the dimensions you need for your kitchen design.

*2020mm long breakfast bars and island units have two long edges and one short edge bonded with the same decorative surface

Endless style

Decorative end panels

spectraworks-surfaces.co.uk

Can you really have too much of a good thing? When it comes to the added protection, durability and style of Spectra Square-Edge we're firmly in the no camp. It's why we offer decorative end panels, which are designed to flawlessly fit at the gable or open end of your cabinets to create a seamless look that's perfectly colour coordinated with your worktops, breakfast bars and island units.

CARRERA
MARBLE
(MATT)

Both sides and all edges of each end panel share the same exact décors as all other Spectra Square-Edge surfaces and are available in both 22mm and 40mm thicknesses to ensure complete uniformity with other surfaces.

Beautiful barrier

Upstands and splashbacks

spectraworksurfaces.co.uk

We understand a kitchen is no small investment, which is why we believe it pays to invest in splashbacks and upstands. This easy to clean, cost-effective protection for your walls will ensure your kitchen looks suitably delicious long into the future.

Both are available in the full range of Spectra Square-Edge décors, ensuring the added value they provide doesn't come at the cost of style.

Splashbacks

Quick to install and even quicker to wipe clean, it's hardly surprising splashbacks are an increasingly popular alternative to tiles. The fact they don't feature unsightly and unhygienic grouted joints is also a big selling point.

Splashback dimensions:

3000 x 1210 x 8mm

Upstands

Upstands provide a seamlessly hygienic barrier between the wall and the worktop. When used alongside a splashback in a kitchen design, the 12mm thick colour matched top edge of the upstand provides a seamless ledge on which the 8mm splashback can be installed.

Upstand dimensions:

4050 x 100 x 12mm

These standard size splashbacks and upstands can be precisely machined to the dimensions you need for your kitchen design.

Custom-made service

spectraworksurfaces.co.uk

We've never been big on limiting imagination. So while Spectra Square-Edge surfaces are available in a wide range of standard dimensions that can be easily machined to suit almost every kitchen, they can also be custom-made to create a design uniquely tailored to your kitchen or utility room. Just point your kitchen designer towards our handy four-step process.

SPECTRA SQUARE-EDGE CUSTOM-MADE FACTS AND FIGURES

Maximum length	4050mm
Maximum width	1200mm
Maximum internal and external radius	600mm
Minimum internal radius	70mm
Minimum external radius	50mm
Thickness options	22mm / 40mm / 80mm / 100mm

Barely a day goes by without our designers crafting a highly curvaceous worktop or custom-made breakfast bar with decorative end panels. And we wouldn't want it any other way.

In the example above our designers have custom-made a 100mm decorative end panel for an island unit.

Custom-made surfaces can also deliver striking contrasts in style and size. In this case, a 100mm thick breakfast bar is used alongside a standard 40mm thick worktop.

Your vision, your way

Custom-made service

spectraworksurfaces.co.uk

This unusually shaped Wild Rustic Oak 100mm thickness breakfast bar fits effortlessly into the living room area of the kitchen and provides both a practical work surface and an eye-catching talking point.

In this striking example the cabinet fitted with a hob projects in front of the other cabinets. The custom-made 40mm thickness Andromeda White worktop elegantly follows the profile of the cabinets using internal and external radii.

There's no need to play things straight with Spectra Square-Edge, as curved ends can be achieved for added standout. The custom-made Grey British Oak ellipse design also reduces the risk of a young child accidentally running into a sharp corner on the breakfast bar.

This custom-made Medium Grey Slate 100mm thick island unit features decorative end panels and is fitted in conjunction with a standard Carrera Marble island unit.

Some ideas are simply born big. Take this White Terrazzo island unit for example. The standard width of an island unit is 900mm, but this one has been custom-made 1200mm wide to provide more space for the sink on one side and ample room for people to sit opposite.

Fits together beautifully

Single-minded simplicity

spectraworksurfaces.co.uk

1. Cabinet framing

It's the little touches that count. By using 22mm Spectra Square-Edge you'll enjoy greater design harmony in your kitchen while also benefitting from a surface that's easier to clean and maintain than standard cabinet panelling.

2. Shelving

Bring added functionality without compromising style with colour coordinated shelving. What's more, as every 22mm Spectra Square-Edge surface features the same décor on both sides and all edges, it'll look the part from every angle.

3. Open cupboard spaces

Creatively coordinate all your available spaces by using 40mm Spectra Square-Edge panels on your open cupboard spaces.

4. Windowsills

22mm Spectra Square-Edge surfaces provide a distinctive alternative to traditional white gloss or UPVC windowsills. They're also a breeze to keep clean and less prone to colour discolouring from prolonged sunshine.

5. Worktops

As the largest surface in the kitchen, the décor you choose for your worktops goes a long way to setting the mood. If you want your kitchen to feel bigger, opt for lighter tones. Want to make it feel more intimate? Darker tones are your friends. Luckily, we've got a wide range of both. Don't forget, sinks, drainers, taps and hobs can be installed into the Spectra Square-Edge worktop, whilst cooking and washing appliances can be easily installed below.

6. Breakfast bar and island units

With the kitchen increasingly the heart of the home, extra space is priceless. With the addition of a breakfast bar or island unit you'll have more room for sharing meals, digesting the newspaper or simply sitting down with a brew. They also provide a perfect opportunity to inject a little visual contrast into your kitchen, as shown in this example. Got a unique shape in mind? Don't forget to take advantage of our custom-made service.

7. Decorative end panels

Extend the colour coordination of your worktops, breakfast bars and island units by asking your installer to fit a matching Spectra Square-Edge decorative end panel at the gable or open end of your cabinets.

8. Upstands

Easy to clean, quick to install and highly cost-effective, coordinated Spectra Square-Edge upstands create a stylish protective barrier where your worktops meet your walls.

9. Splashbacks

This cost-effective alternative to traditional tiles helps beautifully tie your kitchen together. In addition to creating a colour coordinated protective wall panel behind the worktop, splashbacks are also easy to wipe clean.

Guaranteed to deliver

Lifetime warranty

spectraworksurfaces.co.uk

The style and practicality you desire today,
the peace of mind you demand for tomorrow.

That's the beauty of Spectra Square-Edge,
which includes a lifetime warranty against
manufacturing defects so you can be fully
confident you'll enjoy your new kitchen
for many years to come.

Every Spectra Square-Edge surface also comes
with a simple set of guidelines to help you keep it
looking super fresh with minimum fuss.

What's more, in the unlikely event your surface
shows unexpected wear and tear you have our word
we'll make good by repair and/or replacement
any surface shown to have failed due to an issue
with design, materials or workmanship.

A touch of class

Surface textures

spectraworks-surfaces.co.uk

It's one thing to look the part, quite another to feel the part too. The Spectra Square-Edge range achieves the feat in remarkable style. From the cold touch of granite and marble to the subtle sensation of wood grain, each of the five carefully selected textures brings more than just a sense of occasion to your kitchen.

Wood

This texture subtly and ingeniously replicates the natural grain of real wood.

Quartz†

A gloss surface with multicoloured metallic elements freely distributed within the décor to give a dazzling visual effect.

Matt

Used with some of our marble and stone décors, this delicate texture provides a natural look and feel.

Stone

Easy to clean and maintain, the non-reflective and subtle unevenness of this texture echoes freshly quarried natural stone.

Sync

Our most technologically advanced texture, Sync perfectly synchronises with the shapes and colours of the slate and wood décors on which it's applied. The result? An amazingly realistic 3D effect that offers all the durability, cleanliness and low-cost benefits of laminate.

† **Please Note:** The high gloss finish of quartz is more susceptible to scuffs and scratches than other textures, so additional care needs to be taken when using and cleaning.

*The multipurpose panel is bonded on both sides with laminate and has ABS / PP colour matching all 4 edges. It is available in all 24 Spectra Square-Edge décors and is used for shelving, cabinet framing and lining open cabinet areas. Multipurpose panels are custom made and require a 3 week delivery time from point of order.

Please Note: We have price bands A and B, where A is the lowest price and B is the highest price. This is due to different levels of décor and texture sophistication.

The décor shown on this page is Carrera Marble. The décor shown on the front cover is Medium Grey Slate for the worktop and splashback.
