

OPEN
HOUSE®

Beautiful Kitchens. British Design.

KITCHENS DESIGNED FOR THE VERY HEART OF YOUR HOME

At Open House we spend a long time thinking about kitchens and how they can work for you, we know a lot about what is popular now and what has been popular in the past. Be it in design, technology or layout. In fact some may even say we are just a little bit obsessive...

The kitchen space has changed radically over the last 100 years. Influences from around the world have fed into not only British and European kitchen design but also into our way of life.

The kitchen is no longer hidden beneath stairs but is now at the very heart of the modern home and family: often with walls removed to combine kitchen and dining spaces.

And this is why selecting a kitchen is one of the most important aspects of creating your home, as it's also about creating your ideal space and lifestyle.

Hopefully this is where we come in though, as sometimes it can be pretty useful to know an obsessive...

A decorative orange line starts at the top left, extends horizontally to the right, and then turns vertically downwards. A dashed vertical line runs along the left side of the page.

OPEN HOUSE'S SELECTED HISTORY OF KITCHEN DESIGN

1905 Tabitha Babbitt, a Shaker furniture maker, designs the circular saw which would revolutionise furniture manufacture.

1908 Edwardian houses were built with a 'Copper' the only means of obtaining hot water in significant amounts.

1924 English Army officer William Howard Livens designs the dishwasher.

1947 Percy Spencer invented the first microwave oven from radar technology developed during the war.

1963 Designer Robin Day designs his classic Polypropylene stacking chair – great for storing chairs for when you have friends visiting.

1972 Breville develops the sandwich toaster.

1970 Le Creuset produced their first cast iron pan.

1982 Ken Hom's Chinese Cookery launches on BBC TV bringing Chinese cookery to the UK home.

1995 As the kitchen becomes the centre of the family home, more and more people begin to knock through walls to create large 'kitchen diners'.

2008 The invention of the Tablet could spell the end for countless rows of recipe books...

2014 Clean architectural lines are the kitchen design choice for the 21st Century.

1894 Scotland's Compton and Co. produced the first electric kettle.

1930 The Aga is first imported into the UK from Sweden - it's been built here ever since...

1921 Crompton & Company unveil the first electric toaster.

1934 As electricity became supplied to more homes, appliances such as washing machines began to appear in the UK home.

1952 Laminate worksurfaces and breakfast bars are developed by Formica and quickly become the height of fashion.

1954 Elizabeth David is credited with the revitalisation of the art of home cookery.

1964 Teflon, the first non-stick surface for pans, is developed.

1974 Solid Surfaces are first introduced and quickly became very popular due to both their hygienic properties and seamless design.

1971 Delia launches her cookery course: the country rushes to the kitchen...

1982 Televisions became small enough to be added into kitchen design.

2004 Although the technology had been developed in the 1970's induction hobs sales increased ten-fold.

2013 Open House's state-of-the-art cabinet technology radically speeds up the installation of kitchens.

2015 Beautiful acrylic splashbacks make the hassle and expense of glass a thing of the past.

TOP MANUFACTURING

Open House is partnered with the very best British and European manufacturers, using the most up to date manufacturing techniques.

ACRYLIC SPLASHBACKS

Whilst tiles still dominate the splashback market, consider the use of our new range of modern acrylic splashbacks - all the look of glass but without the hassle. [Page 112](#)

EASY CLEAN DOORS Vinyl and high gloss acrylic surfaced doors with a super tough MDF core are designed to be incredibly easy to clean.

WARRANTY A kitchen is a hard working place, that's why we have provided a conditional 6 year warranty.

WORKSURFACES We can supply a wide range of worksurfaces, from our extensive laminate range to our beautiful real wood surfaces and top of the range solid surfaces. [Page's 100 - 111](#)

ONE STOP SHOP Unlike other kitchen producers we are proud to be able to supply not just doors and cabinets but also super modern acrylic splashbacks and a comprehensive range of worksurfaces all available with colour and texture matched splashbacks and upstands.

WHAT MAKES US DIFFERENT

How we do things

DESIGN TIPS

Food for thought

Keep things fresh

Extraction helps ventilate cooking smells, keeping your kitchen as fresh as a daisy.

Make sure to plan for an extraction system to sit directly above your hob or range cooker at the correct height.

The Working Triangle

Plan for the sink, fridge, oven and hob to form a triangle, keeping the distance between them to a minimum for ease of movement.

Worksurfaces

You can never have too much workspace, especially around the hob and the sink. Remember that with a small overhang you can also create the ideal breakfast bar.

Our range starts on page 100

Appliances

It's important to plan exactly what appliances you will want in your kitchen - built in oven or range cooker; fridge and freezer combined or separate?

Light Fantastic

Unlike in other rooms of the house, ceiling installed overhead lighting is insufficient. In the kitchen, you don't want the light behind you, casting a shadow on the work surface, you need it positioned to fall in front of you. We like under-cabinet spotlights because they shine directly on work surfaces and also, why not consider plinth lights for some added sparkle.

Also it's great to have an option of some low level lighting if you are going to be eating in the kitchen.

Time at the bar

A bar with stools offers extra kitchen workspace and acts as a barrier between the kitchen proper and its dining area.

It's also a great place for a quick snack or a social drink with friends and family.

Point of power

Remember to plan for all your power sockets for each electrical appliance you will use... It's also worth putting more than you think you'll need above the work surface, a kettle, mixer, toaster and coffee maker all start to add up!

But for safety, keep sockets well away from the sink and any potential water spillage.

Islands

An island can be a great way of adding more working space and can be a fantastic social focal point for any kitchen.

HERITAGE

LANCASHIRE

Heritage Kitchen

This beautiful heritage kitchen is the perfect example of a Shaker Kitchen.

To the Shakers, furniture was made thoughtfully, with functional form and proportion, which simply means it looks great.

We love the modern olive grey colour of the Lancashire, teaming it with white walls and tiles brings the colour out of the cabinets and makes them the star of the room, although we are also pretty fond of the beautiful Open House real Walnut worksurface we have paired it with.

We have used round pillars to soften the wall end cabinets, whilst tongue and groove end panels complete the look. These are both available for all Open House Heritage kitchens.

A traditional look for a very modern home...

SHOWN IN

Door Colour : Grey Pantone 400

Handle Selection : OH ACC 354 Pewter Forged Knob

Cabinets : White

Worksurface : Open House Solid Wood European Walnut

Splashback : Open House Acrylic Pure White

OPEN HOUSE BENEFITS

Cleaning & Hygiene : Easy clean vinyl doors makes cleaning a breeze.

Long lasting : Our vinyl surfaced doors are ultraviolet resistant and so won't fade in colour over time.

A classic five piece Shaker design with a traditional recessed centre panel. Lancashire's doors are produced using five separate sections that fit together beautifully.

The vinyl surfaced door is not only moisture resistant but also has a beautiful oak grain finish. The five piece construction gives this door grain rotation on the top, bottom and side stiles.

22mm thick doors with a 120mm wide frame and a 6mm centre panel and 2mm chamfered edge finish. All with an ultra modern, ultra strong and ultra sustainable MDF core.

Lancashire has been awarded an FSC certificate for its use of ecologically sustainable materials and a FIRA Gold mark. FIRA Gold is an independent quality certification mark within the furniture and kitchen industries.

Door Colour : Pantone 400
Door Finish : Oak grain
Door Thickness : 22mm
Door Material : Vinyl surfaced doors with MDF core. Clear glass wall unit doors are also available.
Hardware : All 110 degree hinges and drawers are engineered in Germany by Hettich to soft close quietly and gently.
Conditional Warranty : 6 Years

LANCASHIRE

Heritage Kitchen

CAERPHILLY

Heritage Kitchen

This Shaker kitchen looks just right in a modern white, with the beautiful natural tones of oak grain showing through. By pairing it with the daring full scale Dolce Vita laminate worksurface, we think this design truly brings traditional Shaker kitchen design into the 21st century.

SHOWN IN
Door Colour : White with natural oak grain showing through.
Handle Selection : OH ACC 370 & 371 Stainless Steel T-Bar
Cabinets : White
Worksurface : Open House Round Edge Laminate Dolce Vita
Upstands : Open House Laminate Dolce Vita

OPEN HOUSE BENEFITS
Hardwearing : Vinyl surfaced doors are tough and will withstand everyday knocks.
Great Value : Laminate worksurfaces and upstands give fantastic value for money.

A classic five piece Shaker design, Caerphilly's doors are produced using five separate sections that fit together beautifully.

The vinyl surfaced door is not only moisture resistant but also has a beautiful oak grain finish to complement and give even more character to this white door. The five piece construction gives this door grain rotation on the top, bottom and side stiles.

22mm thick doors with a 120mm wide frame and a 6mm centre panel and 2mm chamfered edge finish. All with an ultra modern, ultra strong and ultra sustainable MDF core.

Caerphilly has been awarded an FSC certificate for its use of ecologically sustainable materials and a FIRA Gold mark. FIRA Gold is an independent quality certification mark within the furniture and kitchen industries.

Conditional Warranty : 6 Years

CAERPHILLY

Heritage Kitchen

CHESHIRE

Heritage Kitchen

Our Cheshire kitchen is an oak grain shaker, which we think works beautifully with the white laminate Carrera Marble worksurface and splashback we have paired it with.

The oak grain looks fantastic alongside the white walls and pale wood floor of this kitchen, making what could be an old fashioned look, much more up to date.

SHOWN IN
Door Colour : Odessa Oak
Handle Selection : OH ACC 353 Pewter forged D-Handle
Cabinets : Cream
Worksurface : Open House square edge Laminate Carrera Marble
Splashback : Open House Laminate Carrera Marble
Upstand : Open House Laminate Carrera Marble

OPEN HOUSE BENEFITS
Cleaning & Hygiene : The vinyl surfaced doors can be cleaned easily and quickly.
Sustainability : No trees were cut down to produce this completely realistic oak effect door.

A classic five piece Shaker design, Cheshire's doors are produced using five separate sections that fit together beautifully.

The vinyl surfaced door is not only moisture resistant but also has a beautiful oak grain texture to perfectly complement the oak effect design. The five piece construction gives this door grain rotation on the top, bottom and side stiles.

22mm thick doors with a 120mm wide frame and a 6mm centre panel and 2mm chamfered edge detail. All with an ultra modern, ultra strong and ultra sustainable MDF core.

Cheshire has been awarded an FSC certificate for its use of ecologically sustainable materials and a FIRA Gold mark. FIRA Gold is an independent quality certification mark within the furniture and kitchen industries.

Door Colour : Odessa Oak
Door Finish : Oak grain

GLOUCESTER
 Heritage Kitchen

ROQUEFORT

Heritage Kitchen

Our traditional style Roquefort kitchen has the Edwardian period look that we love.

The cream doors work well with the rich Open House solid wood Iroko worksurface that we have paired them with, whilst the gorgeous Belfast sink is the perfect traditional accompaniment.

Our super-modern Acrylic splashback however brings this kitchen into the 21st century. The reflective surface adds depth to the space and the subtle magnolia colour proves that you don't have to use a bold colour to make a statement with an Open House splashback...

SHOWN IN

Door Colour : Cream Pantone P 7-9C

Handle Selection : OH ACC 370 Stainless Steel T-Bar

Cabinets : Cream

Worksurface : Open House Solid Wood Iroko

Upstands : Open House Solid Wood Iroko

Splashback : Open House Acrylic Whipped Cream

OPEN HOUSE BENEFITS

Cleaning & Hygiene : The vinyl doors make cleaning quick and easy.

Ultraviolet Resistant : Unlike many other door surfaces, our vinyl will not fade or change colour when exposed to the sunlight for long periods.

A classic one piece Shaker design, Roquefort doors are produced using vinyl which is not only moisture resistant but also a beautiful matt finish.

18mm thick doors with an ultra modern, ultra strong and ultra sustainable MDF core.

Roquefort has been awarded an FSC certificate for its use of ecologically sustainable materials and a FIRA Gold mark. FIRA Gold is an independent quality certification mark within the furniture and kitchen industries.

Door Colour : Cream Pantone P 7-9C
Door Finish : Matt
Door Thickness : 18mm
Door Material : Vinyl surfaced doors with MDF core. Clear glass wall unit doors are also available.
Hardware : All 110 degree hinges and drawers are engineered in Germany by *Hettich* to soft close quietly and gently.
Conditional Warranty : 6 Years

ROQUEFORT

Heritage Kitchen

PECORINO

Heritage Kitchen

A classic kitchen door style finished with a Lissa Oak wood effect decor; with our Pecorino kitchen the old really does meet the new.

Shown here with a Roman Marble round edge laminate worksurface which perfectly complements the white tile splashback, this also really brings out the wood grain in the doors.

Contrasting cast iron door knobs complete a more modern take on a traditional kitchen.

SHOWN IN

Door Colour : Lissa Oak

Handle Selection : OH ACC 351 Cast Iron Knob

Cabinets : Lissa Oak

Worksurface : Open House round edge Laminate Roman Marble

OPEN HOUSE BENEFITS

Colour Co-ordinated: The Lissa Oak cabinets colour match the Lissa Oak doors.

Easy Close Doors: The *Hettich* soft close hinges used by OPEN HOUSE make door closing both gentle and quiet.

A classic one piece shaker door design incorporating a chamfered recessed centre pane. Pecorino doors are produced using a vinyl surface which is both moisture resistant and displays a fantastic oak grain finish.

18mm thick doors with an ultra modern, ultra strong and ultra sustainable MDF core.

Pecorino has been awarded an FSC certificate for its use of ecologically sustainable materials and a FIRA Gold mark. FIRA Gold is an independent quality certification mark within the furniture and kitchen industries.

Door Colour : Lissa Oak
Door Finish : Oak grain

Heritage Kitchen

ST IVES

Paintable Kitchen

A Shaker Kitchen that gives you the final say about how your kitchen looks and feels.

Perfect for those who have creative minds or maybe for those who just know exactly what they want. Our St Ives kitchen can be painted almost any colour you can think of...

In our kitchen shown to the right we have used a dark blue, which has a little hint of green in it and we have paired it with the Open House European Maple worksurface.

We think it's great how the white walls contrast and highlight the blue painted colour of the kitchen doors, drawer fascias, cabinet end panels, cornice, pelmets and plinths.

A heritage look that you control...

ST IVES

How to Paint

What materials and tools do I need?

Brushes: Use a 25mm approx. wide reasonable quality synthetic brush.

Primer: Use Zinsser Bulls Eye 1.2.3® water-based primer.

Paint: Use water based paints: They are much safer for the environment and for you too.They are also faster drying and it's easier to clean the brush afterwards: which saves you a lot of time! We recommend you choose from these manufacturers of water based paints:-

Farrow and Ball® Estate Eggshell finish
Little Greene® Intelligent interior Eggshell finish
Dulux® Satinwood finish
Mylands® Eggshell finish

How do I decide which colour?

Well, that's really up to you of course:but make sure to first get a sample pot of the colour you like and test it on a primed panel of wood: this way you can get a good idea of what your kitchen will look like before you invest in a large pot of paint.

How do I paint the doors? *

Wait until all the doors have been fitted by your kitchen installer.

Unscrew the doors from the hinges.

We've found it best to only unscrew as many doors as you can paint in one session.That way you won't have a lot of doors lying around.Make a note of which door belongs to which cabinet.

Once the doors are off, unscrew the handles.

Cover a table or work bench with newspaper to protect it from splashes, and then place a door on a wooden block on the table.

Open the primer and stir well to mix. Fill your brush with primer (but not so much that it drips) and apply to one side and all the edges of the door using long and steady paint strokes that follow the oak effect grain of the door.Take care to get into the corners of these St Ives shaker style doors.

Wait for 1 hour and then carefully flip the door over and prime the other side.

If you have space on the table or workbench, you could have more than one door on the go at the same time.When dry after another hour; lean beside it's cabinet for safe keeping whilst you prime the other doors.

Then repeat this process for the application of your colour of paint to each door.Then repeat again (2 coats are needed). Importantly, please bear in mind that paint (unlike primer) will need at least 6 hours drying time before another coat is applied and another 6 hours before being put back onto the cabinets. Carefully screw the painted doors back onto cabinet hinges.

How do I paint the accessories?*

The accessories are the plinth, the cabinet end panels, the cornice and the pelmet.

The plinth is easily removable and can be painted in the same way as the doors.

The accessories that will need to be painted whilst fixed to the cabinets are the cabinet end panels, the cornice and the pelmet. Protect the surrounding areas from paint overspill with the use of low tack masking tape.

Follow the same instructions for applying the primer and paint to the accessories as we have described for the doors.

Finally - Stand back and admire your handiwork

*Please read the instructions on the paint and primer tins carefully before applying.

This is just a small selection of colour ideas - all these colours and more are available from the recommended paint manufacturers.

CLASSIC

NORMANDY

Classic Kitchen

A handleless J-profile kitchen door, which creates a stunning seamless finish as handles are not required.

Normandy is a light grey gloss finish that balances beautifully against the grey Open House solid surface worksurface we have chosen.

By extending the worksurface, we have created a breakfast bar, that will also act as a focal point for the kitchen and offers some valuable extra work space.

Strong and Ease of Maintenance :

Ultraviolet resistant: unlike many other door surfaces, our acrylic surfaced doors will not fade or change colour when exposed to the sunlight for long periods.

A classic one piece construction with a stunning glass effect finish. London's doors are surfaced with Acrylic. The surfaces are cold rolled which gives a superior finish and produces the stunning coloured glass effect.

3-dimensional glass effect edging is also applied to the doors, giving superior heat, moisture and impact resistance.

19mm thick doors with an ultra modern, ultra strong and ultra sustainable MDF core.

London has been awarded an FSC certificate for its use of ecologically sustainable materials and a FIRA Gold mark. FIRA Gold is an independent quality certification mark within the furniture and kitchen industries.

Door Colour : Blue Pantone 5523
Door Finish : Glass Effect
Door Thickness : 19mm
Door Material : Glass effect Acrylic surfaced doors with MDF core.
Hardware : All 110 degree hinges and drawers are engineered in Germany by Hettich to soft close quietly and gently.
Conditional Warranty : 6 Years

SAN SEBASTIAN

Modern Kitchen

Subtle, stylish and undeniably modern our San Sebastian kitchen is a beautiful addition to our modern range.

Shown here with a large island unit creating both work space and social space our San Sebastian kitchen works beautifully with the Open House Chocolate Quartz solid surface work top and our stunning Open House acrylic splashback.

NEW YORK

Modern Kitchen

The glass effect athracite doors of New York are highly reflective which gives an incredible sense of space even in smaller kitchens.

Here we have balanced the doors perfectly with a stunning Open House solid surface worksurface in Night Star Quartz and our acrylic splashback in Metallic Silver.

We have also used Night Star Quartz to create a table to the right of the island unit, further demonstrating the flexibility and practicality of Open House solid surfaces.

A modern masterpiece.

HINGES

German Quality

Hettich's RED DOT and iF design award winning products* are a perfect match for our kitchen Range.

The new generation of soft close hinges from Hettich close doors quietly and without fuss, with a feel of luxury that we think works beautifully - German engineering at its best.

Providing an opening angle of up to 165 degrees, the Hettich Sensys wide angle hinge gives furniture doors a wide opening angle and closes them evenly and gently.

Zero-protrusion hinges make it possible to fit internal drawers without spacer profiles, preventing trapped fingers no matter what position the door is in.

* The Hettich Sensys wideangle hinge has received the internationally prestigious iF Product Design Award 2014 and the Red Dot Award "Product Design 2014"

DRAWERS

German Quality

Hettich's stunning soft close drawer packs are a perfect match for our kitchen range.

Each top quality pre-assembled Hettich innotech soft close drawer comes individually boxed, ready assembled & includes all components & screws required for fitting.

Drawers are manufactured with a durable and attractive powder coated silver colour. Double wall steel sides & back with a matching silver 16mm MFC base. Hettich Quadro have silent soft close and self cleaning runners.

All drawers are 470mm deep which gives a full extension.

All drawers have a heavyweight 30kg load capacity.

Toolless height adjustment by a brilliantly engineered thumb wheel (+/- 2mm).

Easy lateral adjustment by screw driver (+/- 1.5mm).

Heights
Standard drawer height 70mm.
Saucepan drawer height 176mm.

STORAGE

German Quality

Everything should have its place and with Open House storage solutions you will have more success in finding those places.

With the increasing demands from local authorities to separate kitchen waste materials, these pull out waste bin options can be invaluable.

Our attractive wire worked storage devices are also fantastic at making the most of the space available to store those goods that you have yet to use...

SOLID SURFACE

Worksurfaces & Splashbacks

Open House Solid Surface worksurfaces are a range of durable worksurfaces, sinks and bowls that have all the beauty and feel of natural stone combined with exceptional practicality.

Solid Surface is the perfect surface for domestic kitchens, as it not only looks fantastic but because of its seamless qualities is super easy to clean.

Our Solid Surface worksurfaces can be cut and fitted safely and easily by specialist qualified installers.

Also like stone the beautiful designs are not just skin deep, they run consistently throughout its thickness.

Our Solid Surface worksurfaces are a completely safe surface on which to prepare and eat food. Open House Solid Surface is easy to clean and 100% waterproof so harmful germs are prevented from being harboured on the surface. Also, because of the smooth imperceptible seams, there are no unsightly joints within which dangerous bacteria could develop.

REAL WOOD

Worksurfaces & Upstands

Choosing an Open House wooden worksurface will bring natural harmony to your kitchen. As one of nature's most versatile and enduring materials, we believe that wood gives warmth, life, character and heart to any kitchen.

It will take about 40 years for saplings to mature into trees that are ready for harvesting, so at Open House we never rush into producing wooden worksurfaces. The process begins in carefully selecting timber that comes from sustainable forests. Good forest management has always required the selective felling and planting of trees ensuring that our woods and forests remain for future generations.

Our FSC® certification provides a chain of custody that ensures a sustainable process is followed from the forest to the finished worksurface.

Our worksurfaces are made from precisely manufactured solid wood blocks or 'staves' of seasoned timber.

The staves have well proportioned dimensions to produce a beautiful and immensely strong solid wood worksurface. Each worksurface is unique in appearance due to the varying staves of natural timber selected. Staves are bonded together with finger joints and specialist adhesive.

The strength of a finger joint comes from the long-grain to long-grain contact between the fingers, which provides a solid gluing joint.

Open House solid wood worksurfaces are supplied with square cut ends which can be retained for a more contemporary feel or they can be machined to your own choice of profile.

EUROPEAN MAPLE

Wooden Worksurface

A pale hardwood, Maple is a lovely understated alternative to Beech or Oak.

Very popular in America, Maple is becoming increasingly used in European kitchens to create beautiful, hard-wearing worksurfaces which have both style and strength.

EUROPEAN BEECH

Wooden Worksurface

The fine and short grain of European Beech makes it an easy wood to work with and it has a stunning durable finish.

The toughness of European Beech makes it perfect for a kitchen worksurface.

EUROPEAN OAK

Wooden Worksurface

As solid as oak, that's exactly what our Oak worksurface offers as well as a beautiful woodgrain.

The natural strength and hardness of the timber make it ideal for any kitchen.

IROKO

Wooden Worksurface

Both highly durable and with exceptional, natural antibiotic properties, Iroko is a great surface for food preparation which makes it a perfect kitchen worksurface.

EUROPEAN WALNUT

Wooden Worksurface

No longer just for the finest of furniture makers, Open House Walnut's timeless finish is ideal for any modern or traditional kitchen.

BLACK OAK

Wooden Worksurface

The worktop with the wow factor: Our Black Oak worksurface has been specially treated to give a similar appearance to the highly prized tropical timber Wenge.

Not only is this a fraction of the cost of Wenge it is also completely sustainable.

SQUARE EDGED LAMINATE

Worksurfaces, Upstands & Splashbacks

Open House Square edged worksurfaces are edged on all four sides and laminated both top and bottom with the same high quality laminate.

Installation is quick and easy and does not require any on site finishing, this guarantees a seamless finish every time. This contemporary square edged profile top will help revolutionise your kitchen designs.

Open House can also produce a worksurface to your own Custom size and design, with short lead times and to a very reasonable budget.

Talk to your retailer about our custom programme and get your own exclusively designed worktop just for your kitchen

Also why not complete the overall look by choosing a complementing upstand and splashback?

Worksurfaces, Upstands & Splashbacks

Our carefully selected round edged laminate range covers all kitchen trends: stone, slate, wood, granite and fantasy decors, to help create the kitchen of your dreams.

Our range of textures adds substance and interest to ensure your kitchen not only looks good, but feels good too.

From dramatic highly reflective gloss, to subtle soft brushed effects, our Open House laminate will help you achieve the exact kitchen you desire.

All of our laminates can be made into matching worktops, upstands and splashbacks to provide the perfect Open House finishing touch.

ACRYLIC

Splashbacks

Our new ultra modern Open House Acrylic Splashbacks are the perfect modern alternative to glass.

Open House splashbacks, unlike glass, can be cut on site and require no specialist tools, making your installation quick and easy.

Super strong and even more beautiful, our Acrylic splashbacks are the perfect way to finish your kitchen.

It is 25 times more impact resistant and stronger than glass, so it will not shatter when it is bumped into. It has a high heat resistance (up to 100°C) and will put up with the kettle steaming against it one minute and an icy blast the next because someone has left a door open in the middle of winter.

Open House Acrylic also has an excellent resistance to many cleaning chemicals, everyday stains, scratches and the ultraviolet rays from sunlight.

CASE STUDY

Kitchen in the South East

Like many people, John and Elizabeth wanted a bigger kitchen space than their terraced house in Sussex had to offer. By knocking through the wall that divided the kitchen and the old living room they were able to create a larger space and achieve the open plan living that they wanted. A true Open House...

We provided them with a beautiful walnut worktop, which they also used as a breakfast bar in the area where the dividing wall used to fall.

Their Victorian house needed a lot of updating (it still had the old washing 'copper' in the corner) but they wanted to keep a sense of this old style whilst bringing the space up to date.

Our Lancashire kitchen was a great choice as it works perfectly with the period features left in the house whilst also looking fantastic next to wooden floors and the stunning Open House acrylic splashback.

"We love the traditional look of our kitchen - but it's got all the modern features you need..."

Elizabeth Ferguson, Open House customer

"My wife and I bought our first house, which was a bit of a fixer upper to say the least!

The kitchen hadn't been updated since the early 1970's and even then the Victorian Copper had still been left in place!

As it was a period property we wanted a kitchen that would retain the feel of the house but at the same time offering the modern features we wanted in a kitchen.

Open House were fantastic from the very start, helping us out with design choices and we are so happy how the final kitchen now looks.

Our fitter said installation was simple and he was in and out in a few days.

We love our new kitchen, not just how it looks, but most importantly how it works..."

John and Elizabeth Ferguson

KITCHEN SHOWN
